Lender Readiness Assessment

Status: Not Yet Ready

Your model is a solid starting point, and now it's time to refine it. Focus on the high-priority recommendations first, and you'll see real progress. Every great school's financial story started as a first draft.

Key Financial Metrics

Metric	Value	Status	Interpretation
Revenue per Student (Year 1)	\$0	' At Risk	Per-student revenue is low, which may make it difficult to cover costs as you scale.
Cost per Student (Year 1)	\$0	' Good	Total cost per student is \$0, well within revenue per student of \$0, leaving a healthy margin.
Staffing Cost (% of Revenue)	0.0%	' Good	Staffing costs are well-controlled, giving you room for other priorities.
Operating Cost (% of Revenue)	0.0%	' Good	Operating costs are lean relative to revenue.
Profit margin (Year 1)	0.0%	& Warning	Year 1 is near break-even, which is typical for startup schools but leaves little room for surprises.
Profit margin (Year 5)	0.0%	' At Risk	Year 5 margin is concerning, so building a clearer path to profit will strengthen your model.
5-Year Revenue Growth	0.0%	' At Risk	Low projected growth, which could signal difficulty scaling the school.
Days Cash on Hand (Year 1)	365 days	' Good	Cash reserves cover 90+ days of expenses — a strong liquidity position.
Operating Reserve (Year 5)	0.0 months	' At Risk	No meaningful reserve has been built by Year 5 yet, and this is an important area to strengthen as you grow.

Strengths & Risks

Biggest Strength

Well-controlled staffing costs

Biggest Risk

No facility location secured yet, so facility costs are estimated

Recommendations

Priority	Recommendation	Details
HIGH	Grow Your Per-Student Revenue	At \$0 per student, there's an opportunity to strengthen this number. Consider modest tuition adjustments, ESA/voucher programs in your state, or fee-based enrichment programs that add value for families.
MEDIUM	Grow Your Cash Reserve Over Time	By Year 5, your projected reserve covers 0.0 months of expenses. The goal is 3–6 months, and you'll get there by building surplus in your early profit years. Every month of reserve you add makes your school more resilient.
HIGH	Secure Your Facility Location	Your model is based on an estimated facility budget. Once you have a signed lease or purchase agreement, update your model with actual numbers because real lease terms make your projections far more reliable.
HIGH	No facility costs in your model	Your model doesn't include rent or facility expenses. Use SchoolStack Space (space.schoolstack.ai) to calculate how much space your school needs and estimate facility costs before finalizing your budget.
